

CALL FOR PAPERS

ICDFDMS 2020
Jun 18-19, 2020
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDFDMS 2020 : International Conference on Digital Fabrication and Digital Modeling Software is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Fabrication and Digital Modeling Software. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital fabrication
Digital modeling and fabrication
Digital design fabrication
Digital fabrication techniques
Component complexity
Theory in design methodology
Applications of digital fabrication
Interactive fabrication

3D modeling software or
computer-aided design
2D digital fabrication
Additive manufacturing process and
subtractive manufacturing
processes
Machines for fabrication
CNC router, laser cutter and 3D
printer
Digital fabrication in
architecture, engineering and
construction
Advantages of digital fabrication
