

CALL FOR PAPERS

ICNMFNAA 2020
Jul 16-17, 2020
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMFNAA 2020 : International Conference on Noble Metal Functionalized Nanoparticles and Antimicrobial Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Noble Metal Functionalized Nanoparticles and Antimicrobial Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Noble metal functionalized nanoparticles

Mechanistic approach of functionalized noble metal nanoparticles

Electronic properties of functionalized noble metal nanoparticles

Optical and thermodynamic properties of functionalized noble metal nanoparticles

Drug delivery

Tissue engineering

Diagnostics tools

Chemical sensing of analytes for environmental or food control

Antimicrobial applications

Noble metal nanoparticles and their applications to biosystems

Noble metal nanoparticles for biosensing applications

Noble metal functionalized nanoparticles for biomedical applications
