

# CALL FOR PAPERS

**ICETS 2020**  
**Jul 23-24, 2020**  
**Berlin, Germany**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETS 2020 : International Conference on Embedded Technologies and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Embedded Technologies and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Embedded system architecture
- Embedded system design
- Software for embedded systems
- Embedded system components
- Embedded system programming
- Real-time scheduling
- Performance analysis
- Embedded software

- Embedded hardware
- Application-specific processors/devices
- Real-time systems
- Hardware/software co-design
- Testing techniques
- Industrial practices, benchmark suites
- Emerging technologies/applications/principles
