

CALL FOR PAPERS

ICAFSBCM 2020
Jul 15-16, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFSBCM 2020 : International Conference on Advanced Food Science, Bioactive Constituents and Micronutrients is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Food Science, Bioactive Constituents and Micronutrients. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food, public health and food policy
Food supplements and food labels
Food quality and management
Nutrition and nutritional management
Current trends and research in nutrition and food science
Changes in food components during fermentation
Food biochemistry and food microbiology
Genetically modified foods
Antioxidants and lipid oxidation in foods
Bioactive constituents, micronutrients, food additives and ingredients
Analytical methods for food components
Enzymatic reactions in foods

Functional foods and functionality
Food contamination and toxic components
Foodborne infections and diseases
Food safety and control
Food technology
Food processing and packaging technologies
Food and bioprocess technology
Agriculture biotechnology
Food nanotechnology
Nano-engineered foods
Industrial applications of food technology
Tools and techniques in food technology
