

# CALL FOR PAPERS

**ICAHC 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAHC 2020 : International Conference on Advances in Heterocyclic Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Heterocyclic Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Heterocyclic chemistry  
Heterocyclic compounds  
Larger ring heterocycles  
Structures, physical, and spectroscopic features

Chemical properties of heterocyclic compounds  
Reactions of heterocyclic compounds  
Synthesis of heterocyclic compounds  
Applications of heterocyclic compounds
