

# CALL FOR PAPERS

**ICBHSCDT 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBHSCDT 2020 : International Conference on Biotechnology of Human Stem Cell-Derived Therapeutics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biotechnology of Human Stem Cell-Derived Therapeutics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pluripotent stem cells  
Tissue stem cells  
Cellular reprogramming  
Directed differentiation: endoderm,  
mesoderm, and ectoderm  
Translating human development to in  
vitro models  
Defining stem cell differentiation

Stem cell bioenergetics  
Stem cell niche  
Stem cell transplantation and  
cancer  
Stem cell therapy  
Stem cell engineering  
Stem cell ethics
