

# CALL FOR PAPERS

**ICBLTTE 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBLTTE 2020 : International Conference on Bioengineering Liver Transplantation and Tissue Engineering is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioengineering Liver Transplantation and Tissue Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bioengineering liver  
transplantation  
Human-scale whole-organ  
bioengineering for liver  
transplantation  
Bioengineering considerations in  
liver regenerative medicine  
Tissue engineering and  
applications  
Liver regeneration technologies

Graft repair  
Liver stem cells and organoids  
Bio scaffolds  
Bio printing
