

CALL FOR PAPERS

ICEMWM 2020
Jul 15-16, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMWM 2020 : International Conference on Exercise Metabolism and Weight Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Exercise Metabolism and Weight Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Exercise metabolism
Exercise biochemistry
Energy and energy metabolism
Energy metabolism of macronutrients during exercise
Regulation of energy metabolism during exercise
Measurement techniques for energy expenditure
Energy expenditure at rest and during various types of physical activity
Energy storage, expenditure, and utilization
Exercise training and metabolic adaptation

Adaptive physiology and the exercise response
Exercise, stem cells and epigenetics
Brain, neural systems, heart, cardiovascular systems, muscle and mitochondria
Exercise and sport
Anatomy, biology and biosystems
Exercise applications and health
Weight loss
Weight loss management
Weight management strategies
