

# CALL FOR PAPERS

**ICFSMM 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFSMM 2020 : International Conference on Fungal Secondary Metabolites and Microbiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fungal Secondary Metabolites and Microbiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbiology  
Filamentous fungi  
Antibiotics  
Secondary metabolites  
Bioactive substances  
Diversity of structure  
Mode of action  
Biosynthesis

Anti-infective  
Genetic engineering  
Genome mining  
Isolation  
Cultivation  
Screening  
Extreme habitats
