

# CALL FOR PAPERS

**ICIEOM 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIEOM 2020 : International Conference on Industrial Engineering and Operations Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Engineering and Operations Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering management  
Facilities planning and management  
Human factors and ergonomics  
Inventory management  
Logistics management  
Manufacturing and design  
Modeling and simulation  
Operations management  
Operations research  
Production planning and management

Industrial automation and control  
Project management  
Quality control and management  
Reliability and maintenance  
Service systems and service management  
Supply chain management  
Sustainability and green systems  
Systems engineering  
Technology management
