

CALL FOR PAPERS

ICMCS 2020
Jul 15-16, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCS 2020 : International Conference on Mountaineering and Climbing Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mountaineering and Climbing Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mountaineering and Climbing
Physiology of Climbing
Economy in Difficult Rock Climbing
Sport Climbing Related Injuries and Overuse Syndromes
High Altitude Medicine and Cold Effects in Mountaineering
Hypoxic Training
Postural Regulation and Motion
Simulation in Rock Climbing
Grip Capabilities of Climbers' Hands and Fingers
Biomechanics of Ice Tool Swinging Movement

Motor Control and Learning
Visual-Motor Skill in Climbing
Climbing Grades - Systems and Subjectivity
Psychological Processes in the Sport of Climbing
Exposure and Engagement in Mountaineering
Equipment, Technology and Safety Devices in Climbing
The Engineering of Climbing Equipment
Simul-Climbing Progression and Falls Analysis
