

# CALL FOR PAPERS

**ICMEAIM 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEAIM 2020 : International Conference on Microbial Enzymes and their Applications in Industries and Medicine is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbial Enzymes and their Applications in Industries and Medicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial enzymes from  
extremophiles  
Microbial enzymes applications in  
industries  
Microbial enzymes applications in  
medicine

Improve the enzyme production by  
fermentation technique and  
molecular approach  
Biodegradation and bioremediation
