

# CALL FOR PAPERS

**ICNP 2020**  
**Jul 15-16, 2020**  
**Copenhagen, Denmark**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNP 2020 : International Conference on Nano 3D Printing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano 3D Printing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advances in 3D printing and additive manufacturing technology  
Additive manufacturing and 3D printing design considerations  
3D printing materials  
Metal 3D printing  
Rapid product development  
Benefits of 3D printing and technology  
3D printing technology impact on manufacturing industry  
3D printing future technology  
3D image processing and visualization

Nanocomposite and high performance polymers  
High-Performance metal alloys  
3D printing for lightweighting  
Polymers in 3D printing  
Polymers, metals, ceramic and properties  
Nano 3D printing  
3D printing industries  
Challenges in 3D printing  
3D printing of supply chain management
