

CALL FOR PAPERS

ICSEE 2020
Jul 15-16, 2020
Copenhagen, Denmark

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSEE 2020 : International Conference on Structural Engineering and Earthquake is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Engineering and Earthquake. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Building and Earthquake Engineering	Observation and Analysis of Ground
Computer Methods in Structural	Motions
Analysis	Ocean Earthquake and Tsunami
Concrete Structure	Prestressed Concrete
Earthquake and Multi-hazards	Protective Structures
Earthquake Risk Reduction for Urban	Seismic Codes and Standards
and Rural Areas	Seismic Hazard Analysis and
Emerging Technologies in Earthquake	Zonation
Engineering	Social and Economic Impacts of
Engineering Mechanics and Strength	Earthquakes
of Materials	Soil Engineering
Engineering Seismology	Spatial Structures
Experimental Studies on Earthquake	Statics of Structures
and Structural Engineering	Steel Structures
Geomechanics	Structural Analysis
Geotechnical Engineering	Structural Building Design
Graphical and Engineering	
Information	
Numerical Methods in Earthquake	
Engineering
