

CALL FOR PAPERS

ICADST 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADST 2020 : International Conference on Automated Decision Support Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automated Decision Support Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automated decision support	
Automated decision systems	
Model-based data fusion	
Distributed computing	
Automation in decision support systems	Enterprise systems
Automation and accountability	Workflow applications
Automated decision systems and expert systems	Automated decision processing
Automated decision making technologies	Product configuration
Rule-based systems	Yield optimization
Mathematical and statistical algorithms	Corporate and regulatory compliance
Automation and accountability in decision support system interface design	Routing or segmentation decisions
	Fraud detection
	Dynamic forecasting
	Operational control
