

CALL FOR PAPERS

ICADST 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADST 2020 : International Conference on Automated Decision Support Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automated Decision Support Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automated decision support	Enterprise systems
Automated decision systems	Workflow applications
Model-based data fusion	Automated decision processing
Distributed computing	Product configuration
Automation in decision support systems	Yield optimization
Automation and accountability	Corporate and regulatory compliance
Automated decision systems and expert systems	Routing or segmentation decisions
Automated decision making technologies	Fraud detection
Rule-based systems	Dynamic forecasting
Mathematical and statistical algorithms	Operational control
Automation and accountability in decision support system interface design
