

# CALL FOR PAPERS

**ICASEC 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASEC 2020 : International Conference on Agricultural Structures and Environmental Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Structures and Environmental Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural structures  
Home and farmstead planning  
Building construction  
Site selection principles and policy  
Building arrangement  
Planning of farm buildings  
Design of farm structures  
Load consideration for buildings  
Construction safety  
Building designs  
Building materials
