

CALL FOR PAPERS

ICASFS 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICASFS 2020 : International Conference on Agroecological Science and Farming Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agroecological Science and Farming Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agroecology	Indigenous agroecology
Agroecological science and research	Inclusive agroecology
Agroecology and land use systems	Applications of agroecology
Agroecology for sustainable development	Control of pests and diseases
Sustainable food systems	Suppressing pests and diseases and improve fertility
Ecological principles for agricultural production systems	Pest and natural enemy population dynamics
Ecological strategies and approaches	Organic specialty crop production
Agro-population ecology	Analysis of nutrient uptake in organic and conventional systems
