**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATMSI 2020 : International Conference on Automotive Thermal Management Systems and Integration is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automotive Thermal Management Systems and Integration. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Automotive thermal management systems

Vehicle thermal management

High-performing vehicle thermal management

Automotive thermal management technology

Thermal systems control, analysis and integration

Powertrain thermal management

Cooling systems

EGR cooling

Oil cooling

Charge air cooling

Mobile air conditioning

Cabin indoor control

Electric vehicles

Electric motor cooling

Battery thermal management

Heat pumps

Waste heat recovery
