

CALL FOR PAPERS

ICCAFWEDMA 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAFWEDMA 2020 : International Conference on Computational Approaches in Fractals, Wavelet, Entropy and Data Mining Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Approaches in Fractals, Wavelet, Entropy and Data Mining Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematics and Computational
Sciences
Mathematical Aspects of Pulses
Sequences and Time Series
Fractal approaches
Wavelets Analysis, Stochastic
Aspects and Applications
Entropy

Data mining in Industry
Data mining in Medicine
Data mining in Earth Science
Data mining in Engineering
applications
