

# CALL FOR PAPERS

**ICCISED 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCISED 2020 : International Conference on Computer-Aided Structural Engineering and Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Aided Structural Engineering and Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer-aided structural engineering  
Computerized structural design  
Software application for design of structures  
Computerized method for structural design  
Computerized structural design and analysis  
Computerized methods and tools  
Computer programming  
Mechanics of materials

Concrete engineering and advanced concrete technology  
Structural dynamics and analysis  
Numerical methods in structural mechanics  
Geotechnical and earthquake engineering  
Finite element method  
Foundation engineering  
Soil dynamics and rock mechanics
