

# CALL FOR PAPERS

**ICCNSCS 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCNSCS 2020 : International Conference on Carbon Nanotube Sensors and Chemical Sensors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Carbon Nanotube Sensors and Chemical Sensors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Carbon nanotube sensors  
CNT synthesis  
Field effect transistor  
Contact resistance  
Composite materials  
Sensor design and characterization  
Electrochemical sensors  
Biosensors

Chemical sensors  
Gas sensors  
Strain sensors  
Pressure sensors  
Flow sensors  
Mass sensors  
pH sensors
