

CALL FOR PAPERS

ICCSEA 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSEA 2020 : International Conference on Control Sensors and Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control Sensors and Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control sensors
Process control sensors
Sensors for automation applications
Control sensors and engineering applications
Recent developments in sensors
The role of sensor in control systems
Control sensors and advanced applications
Sensor technology in applications of control engineering
Control engineering and sensor technology
Accelerometers, inclinometers and gyroscopes
Mechanical sensors
Optical sensors
Optical fiber sensors

Photonic sensors
Biological, chemical sensors, immunosensors and biomems
Temperature sensors
Pressure sensors
Acoustic sensors
Electromagnetic sensors
Gas sensors
Humidity sensors
Infrared sensors, devices and thermography
Radiation sensors
Robot sensors
Multi sensor fusion technology
Smart and intelligent sensors
