

CALL FOR PAPERS

ICCSTA 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSTA 2020 : International Conference on Control Systems Theory and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control Systems Theory and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control systems theory
Advances in control systems theory
Control systems theory and
engineering applications
Nonlinear adaptive stabilization
Control design and applications

Nonlinear time-varying systems:
analysis and design
Control of mechanical systems
Distributed-parameter systems
Algebraic analysis of control
systems
Structural properties of discrete
and continuous linear time-varying
systems
