

CALL FOR PAPERS

ICCTT 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCTT 2020 : International Conference on Chemical Toxicology Testing is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Toxicology Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry for Toxicity Testing
Analytical Chemistry Requirements
for Toxicity Testing of
Environmental Chemicals
Problems of Testing
Commercial-Grade Chemicals
Chemical/ Vehicle Mixing and
Analysis Problems at a Bioassay
Laboratory
Dosage Mixing and Analysis
Methods Development for Mixing
Chemicals in Rodent Feed
Formulations of Insoluble and
Immiscible Test Agents in Liquid
Vehicles for Toxicity Testing
Analysis of Dosed Feed Samples
Stability Determinations for
Chemical/ Vehicle Mixtures
Chemical Inhalation Studies
Inhalation Toxicology

Methods for Generation of Test
Atmospheres
Monitoring Vapor Concentrations in
Test Atmospheres
Chemical Monitoring of Aerosols in
Inhalation Chambers
Detection of Degradation Products
in Inhalation Test Atmospheres and
Analysis in Combustion Products
Toxicology
Analytical Monitoring for both
Intentional and Unintentional Test
Chemical Release during the Conduct
of Inhalation Toxicity Studies
Chemistry Data Evaluation
Data Evaluation and Management
Evaluation of Dosage Analysis Data
from a Problem-Solving Point of
View
Management of a Repository for
Chemicals Used in Coded Toxicity
Testing
Effects of Good Laboratory
Practices on Chemistry Requirements
for Toxicity Testing
