

# CALL FOR PAPERS

**ICDMT 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMT 2020 : International Conference on Design and Manufacturing Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Design and Manufacturing Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Design for manufacturing  
Design and manufacturing  
Design for manufacturing process  
Expertise in design  
Design learning strategies and design pedagogy  
Design as a social process  
Gaming and simulation in design  
Designing user interfaces  
The role of visual techniques in the design process  
Design tools  
Sustainability  
Manufacturing technology  
Product design

Engineering design  
Industrial design  
Design in engineering subject areas including: mechanical engineering, civil engineering, electrical and electronic engineering, sports engineering, manufacturing, production, control and automation, materials, etc  
Computer aided design (cad)  
Computer aided manufacturing (cam)  
Computer aided engineering (cae)  
Web/internet technologies in design engineering, such as grid computing, web-services  
Mobile networking, wireless computing, etc  
Design management  
Integrated design and manufacturing  
Concurrent engineering  
Mechanical transmission  
Machine elements
