

CALL FOR PAPERS

ICEFT 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEFT 2020 : International Conference on Experimental Food Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental Food Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Experimental food science
Food chemistry experiments
Food science and technology
Food science and biotechnology
Statistical methods for food science
Design of experiments for food engineering
Statistical experimental design
Applications of experimental design in food science

Evaluating food by objective methods
Evaluating food by sensory methods
Experimental food processing methods
Food quality and nutrient retention
Chemical, instrumental and sensory analysis techniques
Experimental foods
Food preservation
