

# CALL FOR PAPERS

**ICEGGE 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEGGE 2020 : International Conference on Environmental Geotechnics and Geoenvironmental Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Geotechnics and Geoenvironmental Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental Geotechnics and  
Geoenvironmental Engineering  
Geoenvironmental risk assessment,  
management and sustainability  
Sustainability  
Risk-based site evaluation and  
management  
Case histories and regional  
experiences  
Geotechnical recycling and reuse of  
waste materials  
Construction and demolition wastes  
Coal combustion residues  
Dredged sediments  
Other solid wastes  
Transport, persistence and fate of  
pollutants

Advection  
Diffusion  
Adsorption  
Degradation and attenuation  
Emerging contaminants  
Contaminated land and remediation  
technology  
Site investigation  
In-situ remediation  
Off site remediation  
New remediation technologies
