

CALL FOR PAPERS

ICEMN 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMN 2020 : International Conference on Experimental Molecular Neurobiology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental Molecular Neurobiology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular neurobiology
Nervous systems
Neurochemistry and molecular
neurobiology
Molecular and cellular
neuroscience
Neurochemical systems
Molecular targets
Anatomical systems

Research methodology
Organization of neurons in the
brain
Information processing in cells
Control of the expression of
genetic information
Molecular evolution
Mutation and protein evolution
Biomolecules
