

CALL FOR PAPERS

ICGSIGT 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSIGT 2020 : International Conference on Geoenvironmental Site Investigation and Geophysical Testing is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geoenvironmental Site Investigation and Geophysical Testing. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geoenvironmental site investigation
Geoenvironmental site investigation techniques and technologies
Intrusive ground investigation
Geoenvironmental investigation
Analysis requirements for engineering structures
Geoenvironmental investigation and testing
Geoenvironmental site investigation methods

Test pitting, drilling, soil sampling and rock coring
In situ testing, cone penetration testing of soil profiles
Geophysical and geoenvironmental testing
Standard and cone penetration test
Geotechnical investigation and testing program
Laboratory testing methods for soils and rocks
