

CALL FOR PAPERS

ICMGSM T 2020
Jul 16-17, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMGSM T 2020 : International Conference on Molecular Graphics System, Modelling and Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Graphics System, Modelling and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular engineering
Molecular graphics
Molecular graphics system
Relation to molecular models
Comparison of physical models with molecular graphics
History
Molecular structure
Structure visualization
Visualization software
Art, science and technology in molecular graphics
Space-filling models
Technology

Algorithms
Molecular engineering applications
Materials, systems, and processes for specific functions
Reference frames
Molecular dynamics
Molecular design software
Molecular mechanics
Materials, systems, and processes for specific functions
Molecular modelling
Molecular model
Chemistry
Theoretical chemistry
