

# CALL FOR PAPERS

**ICSFSAE 2020**  
**Jul 17-18, 2020**  
**Helsinki, Finland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSFSAE 2020 : International Conference on Sustainable Food Systems and Agricultural Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Sustainable Food Systems and Agricultural Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable food systems  
Nutrition-sensitive agriculture and food systems  
Sustainable diets within sustainable food systems  
Sustainable food systems from agriculture to industry  
Food demand and food environment  
Nutrition of vulnerable groups  
Governance, leadership and accountability for nutrition  
Sustainable food production

Sustainable food processing  
Sustainable food waste management  
Innovative practices grounded in ecological understanding  
Organic farming and other alternative systems  
Economic, social, and philosophical aspects of sustainable agriculture  
Multifunctional landscapes, conservation, and environmental services  
Agriculture and global climate change  
Future projections, options, policies, and indicators of sustainability
