

CALL FOR PAPERS

ICSMM 2020
Jul 17-18, 2020
Helsinki, Finland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMM 2020 : International Conference on Soil Moisture Measurements is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soil Moisture Measurements. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Soil moisture
Soil moisture permeability and capillarity
Neutral and effective pressures
Flow of water through soil
Permeability of layered soils
Soil moisture monitoring

Soil moisture measurements
Soil moisture sensors
Applications for agriculture
Applications for landscape irrigation
Soil moisture-based control technologies
Surface soil moisture estimation
