

# CALL FOR PAPERS

**ICAAS 2020**  
**Jul 30-31, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAS 2020 : International Conference on Advanced Acoustic Sensors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Acoustic Sensors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic sensors  
Current trends in acoustic sensors  
Recent advances in integrated acoustic sensors  
Contemporary trends in acoustic sensing  
Fiber-optic acoustic sensors  
Acoustic, sound and vibration sensors  
Physical aspects of sensing mechanism  
Acoustic measurement sensors and instrumentation

Fabrication of acoustic sensor systems  
Characterization and performance of pressure sensor devices  
Electronic acoustic sensors for control circuits  
Acoustic sensor applications  
Acoustic sensors for industrial, environmental and health monitoring  
Acoustic sensors for chemical and biochemical detection  
Acoustic sensors for industrial applications  
Acoustic sensors for medical applications
