

CALL FOR PAPERS

ICAEH 2020
Jul 30-31, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAEH 2020 : International Conference on Advances in Electroconductive Hydrogels is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Electroconductive Hydrogels. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electroconductive hydrogels
Conductive polymer hydrogels
Electroconductive natural
polymer-based hydrogels
Biomedical applications of
hydrogels
Polyelectrolyte hydrogels

Conductive hydrogel nanocomposites
Conductive polymer hydrogels
Flexible supercapacitors
Electrochemical actuator
Electroluminescence materials and
flexible display
