

# CALL FOR PAPERS

**ICCMPS 2020**  
**Jul 30-31, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCMPS 2020 : International Conference on Chemical Materials and Process Safety is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemical Materials and Process Safety. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemical material	Biochemical Engineering
Chemical metrology of materials	Biodiversity conservation
Applications of biomedical materials	Chemical Engineering educational challenges and development
Atomic molecular and laser physics	Chemical Reaction Engineering
Electrochemistry	Green Organic Synthesis Routes
Polymers	Green Polymers from Renewable Resources
Powder metallurgy and ceramic forming	Physical Chemistry
Precision molding processes	Physical, Theoretical and Computational Chemistry
Advanced bioseparation technologies	Polymer Structures
Advanced Chemical Engineering	Polymerization Reactors
Thermodynamics	Process Safety
Advanced Materials Processing	Process System Engineering
Advanced Process Control	
Advanced Transport Phenomena
