**Jul 23-24, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMA 2020 : International Conference on Engineering Materials and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Materials and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering Materials and Applications  
Nano- and Micro- Materials Engineering  
Engineering and Innovative Materials  
Optical, Electronic Materials and Applications  
Materials Science and Engineering  
Materials Properties, Measuring Methods and Applications  
Methodology of Research and Analysis and Modeling

Materials Manufacturing and Processing  
Industrial Materials  
Mechanical Applications  
Information Technology for Materials  
Applied Mechanics for Materials  
Applied Materials
