**Jul 23-24, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFBCPB 2020 : International Conference on Future Battery Concepts and Potassium Batteries is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future Battery Concepts and Potassium Batteries. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Future battery concepts  
Next generation lithium-ion  
batteries  
Sodium batteries  
Potassium batteries  
Magnesium batteries  
Aluminum batteries

Flow batteries  
Biobatteries  
Thermal batteries  
Graphene batteries  
Supercapacitors
