

CALL FOR PAPERS

ICMSE 2020
Jul 23-24, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSE 2020 : International Conference on Mechanical Sensors and Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Sensors and Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical sensors and actuators
Transducers, sensors and actuators
Magnetic sensing and actuation
Mechatronics, micromechatronics and automation
Mechanical sensing techniques
Magnetoelastic strain gages and force sensors

Torque sensors
Displacement sensors
Actuation with giant magnetostrictive and magnetic shape memory alloys
Magnetostrictive actuators
Magnetic shape memory actuators
