

CALL FOR PAPERS

ICPADIS 2020
Jul 23-24, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPADIS 2020 : International Conference on Practical Applications of Drip Irrigation Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Practical Applications of Drip Irrigation Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Drip irrigation for agriculture
Drip irrigation systems and drip irrigation design
Water distribution and uptake
System management
Flow measurement and system maintenance
Water sampling for drip irrigation
Components and operation

Water quality
Soil type and water movement
Drip irrigation and agricultural development
Advantages and disadvantages of drip irrigation
Practical applications of drip irrigation
Drip irrigation for vegetable production
Subsurface drip irrigation
