

CALL FOR PAPERS

ICPOMEA 2020
Jul 23-24, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPOMEA 2020 : International Conference on Polymeric Optical Materials for Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Polymeric Optical Materials for Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Novel Optical Glasses, Crystals and
Ceramics for Optical Components
Laser Gain and Nonlinear Optical
Materials
Organic and Polymeric Optical
Materials
Structured and Composite Optical
Materials

Advanced Optical Coatings
Novel Materials for Solar Energy
Applications
Metamaterials
Plasmonics
