

# CALL FOR PAPERS

**ICPPANGC 2020**  
**Jul 23-24, 2020**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPANGC 2020 : International Conference on Properties, Production and Applications of Nano-Glass Ceramics is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Properties, Production and Applications of Nano-Glass Ceramics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano-glass ceramics  
Glass crystallization  
Preparation, properties and applications of nano-glass ceramics  
Optical active nano-glass-ceramics  
Novel nano-glass-ceramics  
Nucleation and crystal growth in glass  
Alternative mechanisms of glass crystallization at low temperatures  
Optical properties of nano-glass ceramics  
Application of optical nano-glass ceramics

Ferroelectric and electro-optical properties of nano-glass ceramics  
Structure, properties, and application of ferroelectric nano-glass ceramics  
Magnetic properties of nano-glass ceramics  
Application of soft magnetic nano-glass ceramics  
Application of hard magnetic nano-glass ceramics  
Biomedical applications of nano-glass ceramics  
Nanoporous glass ceramics  
Nano-glass-ceramic coatings and sealants
