

CALL FOR PAPERS

ICSMCF 2020
Jul 23-24, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSMCF 2020 : International Conference on Soft Materials and Complex Fluids is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Soft Materials and Complex Fluids. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Chemistry of soft materials
Computation and theory of soft materials
Physics and rheology of soft materials
Mechanics and dynamics of soft materials
Soft materials and their uses in engineering applications
Chemistry and physics of soft materials
Synthetic polymers
Biopolymers
Liquid crystals

Polymeric gels
Polymeric nanoparticles
Colloidal suspensions and glasses
Soft glassy materials
Granular materials
Influence of particle volume fraction
Influence of shear rate
Active particle suspensions
