

CALL FOR PAPERS

ICCAA 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAA 2020 : International Conference on Climate-Adaptable Architecture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climate-Adaptable Architecture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Climate-adaptable buildings and architecture
Building response strategies to climate change
Adaptation approaches for buildings
Climate responsive design in buildings
Climate-adaptable building design strategies

Climate change adaptability of buildings
Thermal comfort in buildings
Energy-efficient building design
Environmentally responsible architecture
Computer design tools for climate-adaptive architecture
