

CALL FOR PAPERS

ICDGRS 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDGRS 2020 : International Conference on Deep Geological Repository Sites is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Deep Geological Repository Sites. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deep geological repository	General considerations on geological repositories
Geological repository systems	Safety assessment
Principles and background	Benefits of a geological repository
Repository sites	Siting, design and construction of a deep geological repository
The current situation at certain sites	Geoscientific site characterisation
Geological repository systems for safe disposal	Environmental safety
Geological disposal of radioactive waste	Site selection process
Storage and disposal options for radioactive waste	Design of a geological repository
Groundwater models for deep geological repository sites
