

CALL FOR PAPERS

ICFRIR 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFRIR 2020 : International Conference on Flood Recovery, Innovation and Response is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flood Recovery, Innovation and Response. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Flood Recovery, Innovation and Response
Flood risk analysis
Flood risk management
Urban flood management
Flood forecasting
Risk assessment and decision making

Flood case studies
Community resilience to flooding
Energy preparedness and response
Critical infrastructure protection
Flood consequence assessment
Climate change and global warming
