

CALL FOR PAPERS

ICFTSL 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTSL 2020 : International Conference on Freight Transportation Systems and Logistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Freight Transportation Systems and Logistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Freight transport
Freight related decision-making process
Freight decision-making factors
Delivery times, frequency of deliveries, and mode choice
Game theoretical formulations
Shippers, carriers, and receivers
Behavioral economics and behavior of freight agents
Freight behavior modelling using innovative data sources
Road and rail freight
Inland navigation
Maritime transport and ports
Air freight and airports
Urban logistics

Freight transport policies and practice
Ports as nodes in logistics chains
Intermodal transport strategies
Green freight transport
Urban operative logistics models
Transport, logistics and supply chain
Risk analysis in supply chains
Logistic systems and freight transportation systems
Regulation in freight transport
Big data collection for freight transport and logistics
Connecting trade and transport
Intermodal transport
Freight transport chains
