

CALL FOR PAPERS

ICHMSP 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHMSP 2020 : International Conference on Hatchery Management Software and Practices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hatchery Management Software and Practices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hatchery management
Hatch of fertile
Hatchery management systems
Design and operation
Hatching egg management
Key points on egg storage
Optimum egg storage conditions
Effects of egg storage
Setting eggs
Setting time
Recent developments
Genetic management techniques
Chick and incubator management

Setter operation
Egg transfer
Factors influencing chick size
Operation of hatcher
Ventilation and humidity
Temperature
Chick pull and processing
Hatchery waste disposal
Chick transport
Hatchery automation
Hatchery design
Hatchery sanitation
Egg storage
