

# CALL FOR PAPERS

**ICMFA 2020**  
**Jul 13-14, 2020**  
**Ottawa, Canada**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMFA 2020 : International Conference on Mobile Forensics and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Forensics and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mobile forensics	
Recent advances in mobile forensics	
Mobile forensics and engineering applications	Phases of mobile forensic process
Mobile forensic tools	Removable and external data storage
Preservation of information	Hardware differences
Practical mobile forensic approaches	Mobile operating systems
Mobile forensic tool levelling system	Mobile platform security features
Data acquisition techniques and models	Anti-forensic techniques
Challenges and advantages of mobile forensics	Dynamic nature of evidence
Mobile phone evidence extraction process	Communication shielding
	Device alteration and passcode recovery
