

CALL FOR PAPERS

ICMOL 2020
Jul 13-14, 2020
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMOL 2020 : International Conference on Molecules in Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecules in Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular engineering
Molecular interactions
Composites
Mechanical properties
Smart materials and devices

Functional materials
Electrical properties
Engineering applications
Biomedical applications
Synthetic biology
